Profile Summary

A dedicated React.js developer with a strong focus on building dynamic, responsive user interfaces and seamless user experiences. Experienced in developing high-performance web applications, optimizing component rendering, and ensuring clean, maintainable code. Passionate about leveraging modern React features and best practices to create intuitive, scalable applications while maintaining high standards for code quality and performance.

Experience

Foxnet Pvt Ltd

May 2024 – present

ReactJS Developer

Delhi

- Developed and maintained high-performance, user-centric front-end applications using React.js, delivering dynamic, responsive interfaces that meet diverse client needs and enhance user engagement.
- Collaborated on projects featuring both user and admin panels, ensuring a seamless interface and functionality for different user roles.
- Contributed to the design and implementation of project architecture, optimizing data flow and enhancing application scalability.

E2E Research Services Pvt Ltd

June 2021 – May 2024

Programmer

Delhi

- Experienced in developing custom setups utilizing JavaScript and JQuery to enhance survey functionality and user experience.
- Skilled in handling data and fulfilling additional data requests from clients promptly and accurately.
- Collaborative team player with effective communication skills to coordinate with clients and internal stakeholders effectively.

Projects

CardEase | *React, JavaScript, JQuery, TailwindCSS, HTML* | Project Link

October 2024

- Users can quickly find unique ID card numbers from a comprehensive database, minimizing the time spent searching through records.
- By streamlining the ID retrieval process, users significantly reduce operational costs and improve productivity, making the system an effective tool for organizations.
- The project features an intuitive interface that allows users of all technical backgrounds to easily navigate the system, ensuring a seamless experience.

DeskAssure | *React, JavaScript, JQuery, TailwindCSS, HTML* | Project Link

September 2024

- Developed a user-friendly web application enabling users to log in to a personalized panel and manage support tickets efficiently.
- Implemented role-based access control, ensuring that users have tailored experiences based on their roles within the system.
- Utilized React for building dynamic user interfaces, improving the overall user experience with real-time data updates and responsive design.

Foxnet Securitas | *React, JavaScript, JQuery, TailwindCSS, HTML* |

August 2024

- Developed a web application with an Express-based client dashboard and an admin panel, providing real-time data updates and role-specific functionalities.
- Implemented OTP-based authentication and secure backend API endpoints with Node.js to ensure seamless and secure user access.
- Built responsive, mobile-friendly user interfaces using CSS, and integrated MongoDB for efficient data management and storage.

Co-Working Space | *React, JavaScript, JQuery, TailwindCSS, HTML* |

May 2024

- Developed a dynamic co-working space website, creating a responsive layout, implementing interactive features, and ensuring a seamless user experience.
- Engaged in rigorous testing and debugging processes to ensure a high-quality, error-free application.
- Applied modern backend development practices to build a robust and scalable co-working space solution, leveraging technologies like Node.js and Express for efficient server-side functionality.

Technical Skills

Languages: JavaScript, NodeJs, ExpressJS, MongoDB.

Developer Tools: VS Code

Frameworks/Libraries: React, Bootstrap, jQuery, Tailwind, Redux.

Non Technical Skills: Communication, Collaboration in Teams, Implementing Creative Problem-Solving, Adaptability.
